

LONG TERMERS

Porsche 911 Carrera 4

The time had arrived of Porsche Club GB's national event at Eynsham Hall. With editorial deadlines and personal commitments, it was decided that the car would remain on the *GT Purely Porsche* stand for the duration of the show rather than join the line-up of Club concours. That's not to say it wasn't cleaned. However, the ablutionary act consisted of washing the car over with a wet sponge and leathering it off, job done. With the car's body coated with Zymöl polish at the Castle Howard show, it really is a credit to the product that the car continues to look so good with minimal effort. I wash the car on average once a fortnight, so with some of the products getting low I took a trip to the Zymöl stand to replenish my supplies.

We had a great time during the weekend, meeting lots of our readers and gaining valuable feedback on features and issues from *GT Purely Porsche*. Joining my Carrera 4 on the stand was the 2001 Cup Car from Porsche Motorsport and a well-specified Cayenne S from Camtune.

As usual, the car performed faultlessly and provided an enjoyable and effortless drive on the round trip from Essex to Oxfordshire. However, there is a slight amount of judder through the steering wheel under high speed braking conditions so new front discs and pads are in the pipeline.

Ian Hunt
